Sl No	Submitted By	Submitted Date	Description	Detected Sprint	Assigned To	Type Of Defect	Action Taken	Action Taken Date	Status(Open/Closed)	Remarks															
1	Kishan Koundinya	2/9/26	Learned ML, DL, Transformers, and LLM fundamentals. Focused on Transformer architecture, self-attention, and working.	1	Kishan Koundinya	Standards	Studied ML and DL fundamentals, different model types, Transformer architecture, self-attention, and LLM working principles.	13/9/2026	Closed	Completed and submitted for review.															
2	Kishan Koundinya	14/9/2026	Collected authentic company financial documents, including annual reports, financial statements, SEC filings, and earnings reports. Focused on gathering comprehensive, reliable financial data from multiple companies for analysis.	2	Kishan Koundinya	Standards	Collected company annual reports, financial statements, regulatory filings, and earnings reports from authentic sources for financial research.	15/9/2026	Closed	Completed; authentic financial documents collected and submitted.															
3	Kishan Koundinya	18/9/2026	Developed the backend architecture for a multi-agent financial research system, including document processing, session management, and financial data extraction. Researched suitable databases and Transformer models and explored agent optimization for improved accuracy and efficiency.	2	Kishan Koundinya	Maintainability	Designed the multi-agent backend architecture, implemented session management and document processing, and developed financial metric extraction. Researched suitable databases, Transformer models, and agent optimization techniques.	20/9/26	Closed	Completed and submitted for review and feedback.															
4	Kishan Koundinya	9/10/2026	Developed Red Flag, Research, and Comparison Agents with multi-agent orchestration and source-grounded financial analysis. Explored methods to validate research responses, ensure citation accuracy, and detect non-financial documents during ingestion.	3	Kishan Koundinya	Maintainability	Implemented Red Flag, Research, and Comparison Agents with multi-agent orchestration. Evaluated response accuracy, citation reliability, source grounding, and non-financial document detection.	10/10/2026	Closed	Implementation and validation activities completed; submitted for review.															
5	Kishan Koundinya	14/10/2026	Improved UI/UX and completed the Report Agent to generate structured PDF reports with financial insights and comparisons. Performed end-to-end testing and optimized agent prompts, retrieval accuracy, and orchestration reliability.	4	Kishan Koundinya	User Interface	Improved UI/UX and implemented structured PDF report generation. Conducted end-to-end testing and optimized agent prompts, retrieval quality, and orchestration reliability.	15/10/2026	Closed	Completed and submitted for review and feedback.
